

Master Supply Agreement

Effective Date: August 1, 2025
Buyer: Summit Retail Group
Vendor: Granite Peak Logistics Inc.

Summary

This Agreement sets forth the terms under which Vendor will provide logistics and transportation coordination services. The Parties intend to reduce manual review time by standardizing invoicing and service level expectations.

Payment Terms	Payment is due within fifteen (15) days following receipt of a correct invoice. Vendor must reference the purchase order number. Payments will be made by check unless Buyer elects electronic payment.
Termination	Buyer may terminate immediately upon Vendor's insolvency, assignment for the benefit of creditors, or repeated failure to meet agreed service levels. Vendor may terminate immediately for nonpayment that remains uncured ten (10) days after notice.

Detailed Terms

The following sections include additional operational and legal provisions. Headings are for convenience only and do not affect interpretation.

Vendor will maintain written procedures for carrier selection, load tendering, and exception management. Vendor will use commercially reasonable efforts to avoid detention and accessorial charges by scheduling pickups and deliveries during normal receiving hours.

If Buyer provides vendor master data, shipping locations, or rate tables, Vendor may rely on such information unless it is clearly inconsistent. Vendor will promptly notify Buyer of any discrepancies discovered during performance.

For clarity, the Parties agree that no exclusivity is granted and Buyer may engage other providers for similar services.

Vendor will retain shipment documentation (including bills of lading, delivery confirmations, and carrier invoices) for at least eighteen (18) months and will provide copies to Buyer within five (5) business days of request.

1. Service Levels

Vendor will acknowledge all shipment requests within four (4) business hours and provide tracking updates at least once daily. Exceptions will be escalated to Buyer's transportation lead. Vendor will maintain an escalation list and an after-hours contact for critical shipments.

2. Compliance

Vendor will comply with all applicable transportation and safety laws, including hazardous materials rules where applicable. Vendor will not knowingly tender shipments to carriers that are not properly insured or licensed.

3. Audit Rights

Buyer (or its designated auditor) may audit Vendor's relevant records once per calendar quarter upon five (5) business days' notice, during normal business hours. Audits will be limited to confirming compliance with pricing, accessorial charges, and service level commitments.

4. Dispute Resolution

In the event of a dispute, the Parties will attempt in good faith to resolve the matter through executive-level discussions. If unresolved after thirty (30) days, either Party may pursue remedies in a court of competent jurisdiction. Either Party may seek injunctive relief for misuse of confidential information.

5. Insurance

Vendor will maintain commercial general liability insurance with limits of not less than \$1,000,000 per occurrence and workers' compensation coverage as required by law. Vendor will also maintain motor carrier contingent cargo coverage, if applicable to the Services.

6. Confidentiality

Each Party will protect the other Party's Confidential Information and will use it solely to perform under this Agreement. Confidential Information does not include information that is publicly available without breach or independently developed.

7. Notices

Notices must be in writing and delivered by certified mail or nationally recognized courier to the addresses set forth in the signature block, with a copy by email for operational coordination only. Notices are effective upon confirmed delivery.

8. Governing Law

This Agreement is governed by the laws of the State of Illinois.

9. Assignment

Neither Party may assign this Agreement without the other Party's prior written consent, except to an affiliate or successor in interest in connection with a merger or sale of substantially all assets.

10. Entire Agreement

This Agreement constitutes the entire agreement between the Parties regarding the subject matter and supersedes all prior understandings. Any amendments must be in writing and signed by both Parties.
